

### ULTRA GOURMET ICE SYSTEM

- \* Patented reversing auger design quickens freeze time and reduces air mixing with product.
- \* Very simple to program and run with touchpad display, which also guides cleaning and preventive maintenance.
- \* Enhanced "no-lube" design on faucets and seals which simplifies installation and cleaning.
- \* Refrigeration system internally monitored to insure long lasting performance.
- \* Two large 3 gallon hoppers for optimum cooling & serving capacity.
- \* Full 3-year parts and labor warranty on electronics and 5-year parts warranty on compressor.

See the product manual for additional details.

### TEMPEST 91555

#### High Torque 2+ Hp Motor...

Combines efficient, superior blend quality with quieter operation.

#### 3 Program Cycles...

Three program cycles give you the choice of preparing ice cream, ice drinks, or food. Each cycle contains a preprogrammed set of pulses and speeds for precision blending. On model 91555, the rotary dial timer lets you vary the blending time for each cycle.

#### Patented Jar Pad Sensor...

Prevents operation when container is not in place. Prevents grinding and "wear & tear" from misuse.

#### High-Performance Blades...

Patented quad-angle designed, stainless steel cutting and mixing blades ensure perfectly smooth drinks without unwanted ice or fruit chunks.

#### Electronic Speed Control...

Provides constant speed regardless of the load. The sensor monitors the motor load and increases or decreases motor torque continuously to produce consistent blending quality.

### UNIQUE FEATURES

#### 3 Program Cycles...

Offer precision blending with consistent results.

#### Patented Quad-Angle Blades...

Blend smooth drinks without unwanted chunks.

#### Solid Metal-to-Metal Drive Couplings...

Meet the heavy demands of daily usage.
